

Introducing the Sunrise Hub: Supporting the health and recovery of children affected by sexual abuse

Background

The [Independent Inquiry on Child Sexual Abuse](#) has heard from victims and survivors of the psychological and physical effects on well-being, family and intimate relationships, faith, and education and career. For some victims and survivors these effects endure throughout adult life.

This half-day training aims to provide a space for front line professionals who are working with **children who have experienced sexual abuse** to understand local services and reflect on the support needs of children and families affected.

Learning Objectives:

- Increased awareness of identifying and responding to Child Sexual Abuse (CSA) concerns
- Increased awareness of the CSA response pathway
- Learn about the medical and emotional support needed following an allegation of sexual abuse/assault.
- Understand what is involved in a holistic health assessment for child sexual abuse and the difference between the various type of medicals available.
- Understand the service offered at the North-East London Sunrise Hub and other services available in the area.

You can **book your place** using our [online booking form](#). Details of course fees and our cancellation policy can be viewed [here](#).
