

Vulnerable Babies and Supporting Parents

Background:

1,430 unborn infants were subject to Child Protection Plans (CPPs) on 31 March 2025, and 3,930 children aged under one were subject to CPPs on the same date.

Following the death of Baby Victoria, the review, [Protecting All Vulnerable Babies Better](#) (2026) identified learning to strengthen safeguarding for unborn babies and infants. The Better Start programme is focused on giving babies and young children the best possible start in life by supporting families from pregnancy through the early years.

Learners will:

- Explore key findings of trauma and parental non-engagement, concealed pregnancy, domestic abuse and families who move
- Learn about the services and pathways available to multi-agency partners and the families they are working with

To book your place, please use our [online booking form](#). You can click [here](#) for more information on course fees and cancellations.
